This article applies to the Acura TL (2004-2014). The fuses in your Acura TL are the best go-to when it comes to any electrical issues. Each fuse in your fuse boxes is responsible for one or more of your electrical components. When too much current goes into a fuse, the metal piece inside of it breaks to prevent electrical overheating.

My 05 Acura TL battery was dying after 4 days of non-use. Also, when I selected the HFL on the computer, it continually said "Booting." When I felt the map light console at the very front left corner by the rear view mirror, it would get very hot. So, it seems that the HFL malfunction was the culprit for draining the battery.
