Circle the letter next to the correct mathematical equation for work. a. work = force  $\div$  distance b. work = distance  $\div$  force c. work = force  $\times$  distance d. work = force  $\times$  distance<sup>2</sup> 2. You can use the equation in Question 1 to calculate work when

## **Concept-Development 9-1 Practice Page**

A physics exercise does not really become a problem until you accept the challenge it offers and attempt to solve it. Once you have chosen to make it your problem, you have a personal interest in finding the solution. Each chapter of this workbook is divided into two or more topic sections that begin with some physics theory.
