You won't find fiction here - like Wikipedia, Wikibooks is devoted entirely to the sharing of knowledge.

Dyna 2000 Ignition Instructions Harley

programmable with 50 RPM resolution. The DYNA 2000I replaces the stock Hall effect pickup found on the camshaft of all late model Harley's. Earlier model bikes without factory electronic ignition can also use the DYNA 2000I by installing a rotor from any late model bike. The DYNA 2000I can be used with either one ignition coil (dual fire mode) firing both cylinders, or with two ignition coils (single fire mode), one coil firing each cylinder.
