Since the UN's creation in 1945 a vast nexus of global and regional institutions has evolved, surrounded by a proliferation of non-governmental agencies and advocacy networks seeking to influence the agenda and direction of international public policy. Although world government remains a fanciful idea, there does exist an evolving global governance complex – embracing states, international institutions, transnational networks and agencies (both public and private) – which functions ...

**Governing Globalization: Power, Authority and Global ...**  
The three main approaches (classification which shall by no means been regarded as exhaustive) that dominate the landscape of the globalization-state debate are widely known. The first one sustains the idea of a rising globalization of markets and an erosion of the state's authority and importance; also known as hyperglobalist.
