IATA's Safety Audit for Ground Operations (ISAGO) has been built upon a "backbone" of audit standards applicable to all ground handling companies worldwide, coupled with a uniform set of standards relevant for the specific activities of any ground handler. As a result, the ISAGO audit can be applied consistently to multinational ground handlers, as well as to smaller companies providing services at a single station.

procedures in the Airport Handling Manual (AHM), IATA Ground Operations Manual (IGOM), IATA Dangerous Goods Regulations (DGR), IATA Cargo Handling Manual (ICHM) and many others. ISAGO is not a certification scheme, such as provided by agencies that certify compliance with design or process standards.

ISAGO Program Manual - IATA

An IATA Safety Audit for Ground Operations (ISAGO) is based on the operational standards, recommended practices and associated guidance material in the ISAGO Standards Manual (GOSM). The purpose of an ISAGO Audit is for a ground service provider to gain ISAGO Registration and Station Accreditation at one or more of the stations at which it provides ground handling services.
