NX, formerly known as "unigraphics", is an advanced high-end CAD/CAM/CAE, which has been owned since 2007 by Siemens PLM Software. In 2000, Unigraphics purchased SDRC I-DEAS and began an effort to integrate aspects of both software packages into a single product which became Unigraphics NX or NX.. It is used, among other tasks, for: Design

PLM Software's NX. The high-end system has been on the market for a good while now since the merger of the Unigraphics and I-deas product lines. Since the initial release Siemens NX has changed greatly. While the underlying power of the two seed systems has been maintained, the last few years have seen it advance.
