Southwire Company, LLC Releases the Third Edition of Its ...

In 2008, Southwire Company acquired ownership of the SAG10 program. In Version 3.10, Southwire completely redesigned the SAG10 user interface to simplify use of the program. Southwire also made many other enhancements to improve the accuracy and reliability of SAG10. However, this release is simply an upgrade of the existing SAG10 software.

Aluminum Conductor Aluminum Alloy Reinforced Bare Applications Used as bare overhead transmission cable and as primary and secondary distribution cable. A good strength-to-weight ratio makes ACAR applicable where both ampacity and strength are prime considerations in line design; for equal weight, ACAR offers higher strength and ampacity than ACSR.
